

# **Battery Tender Charger Cables**

ColorMaker is a distributor for Battery Tender which manufactures the 10 bank charger and the single port 1.25 charger. All charger warranty are supported by Battery Tender and ColorMaker is not responsible for charger defects.

ColorMaker offers custom cables that will connect to the 10 port charger without the need to alter the charger in any way that will void warranty. The 10 bank chargers are shipped from Colormaker with Battery Tender factory cables. ColorMaker will also supply 10 custom cables which the user will be required to install. Its an easy process which will require a Phillips screw driver and can be done in less that 5 minutes.

The ColorMaker custom cables have not been approved by Battery Tender and therefore will be considered altering the charger if warranty repair is requested. To avoid warranty issues just install the original factory cables before shipping charger to Battery Tender.

ColorMaker also offers a custom cable for the BT125 charger. DO NOT send this cable when shipping the charger to Battery Tender for warranty repairs or Battery Tender will deny warranty.
